XGA "All-in-One" DLP™ Projector

More than just a great Data/Video Projector, the EIP-10V has a DVD player, Media Card player and TV tuner built-in, so you’re always ready to present... at home or on the road.
More than just a great Data/Video Projector, the EIKI EIP-10V is a Self-Contained Presentation System.

Lightweight and compact, it delivers a bright, high contrast XGA computer or progressive scan video DLP™ image. And a DVD player, Media Card player and TV tuner are all built in, so there's no need to search for the peripheral you need to project a DVD, DigiCam Movie or Digital Photo files, or TV program: everything you need is at your fingertips.

The EIP-10V is easy-to-use. The projector locates each new source you connect or start automatically, and configures itself to play. What's more, control for all of the devices is on one convenient wireless remote. And the entire system fits in the supplied carry case, so you can take it anywhere: office, school, home, church... wherever you'd like to project.

The EIKI EIP-10V "All-in-One" gets it all together. It has almost everything necessary for a powerful presentation: just add your computer (if you need it) and you.
