

Wired/Wireless Audio Conference System

- Full digital signal transmission and processing to avoid interference and ensure high quality audio.
- Wireless Mics connect via 5GHz wireless. Wired Mics connect via standard CAT5 cable.
- Chairman unit has priority to close all other mics, approve delegate request to speak and other moderation functions.
- All mics can be configured as Chairman or Delegate through software settings on main console.
- Mics feature stylish, low-profile design with backlit OLED touch display with status indicators for signal and battery
- On-screen time/date display. Timer can be set for each delegate to speak, will remind user, or close mic automatically.
- Mic units include internal high-fidelity speaker, 2x headphone out with volume adjust.
- Record audio to USB with advanced noise cancellation.
- Easy setup and tear down make the system ideal for portable use.
